OPERATIONS AND STATE OF COMPANY'S AFFAIRS

News24, a 24 hours National free to air Hindi news channel has consistently maintained healthy market share in Hindi News Genre and is available throughout India on cable and DTH platforms. In the age of social media, News24 has been able to maintain its credibility, and has gained immense popularity.

News24 is available on our digital and social platform like Facebook, YouTube, etc. News24 is also available throughout West Asia and the MENA Region on DU network across Middle East and North Africa including Algeria, Bahrain, Chad, Djibouti, Egypt, Iraq, Iran, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Oman, Qatar, Saudi Arabia, Somalia, North Sudan, Syria, Tunisia, U.A.E. & Yemen.

The people are keen to watch more and more local news content apart from national developments. News24 wants to serve the local news with equal fervor, and to this extent it launched its first state specific News Channel, i.e. NEWS24 MPCG. Your Company's entry into Madhya Pradesh (MP) &

Chhattisgarh (CG) has yielded excellent results. The channel has become extremely popular in both the states and is a leading local Hindi news channel.

Programs like Amne Samne, Sabse Bada Sawal, News Shatak, Mahaul Kya hai, Tajas-24, Rastra Ki Baat, 10 ki 10 Breaking, kalchakra, amongst others cover a gamut of genres in news reporting and have been received exceptionally well with the audiences across the nation. **"Sabse Bada Sawal", "Mahaul Kya Hai"** and **"Aamne Saamne"** are most liked program on News24.

These shows continue to reflect the innovative ways of reporting news that has given the maximum viewership and rating to our channel making its marked presence felt in the whole Media Industry.

COVID-19 IMPACT AND MEASURES

The Year under review has again been a challenging year for the Company, as COVID-19 continued to adversely impact the operations of the Company. Due to the burgeoning caseload across the entire country, localized lockdowns and curfews were mandated by various state governments.

The 3rd wave of COVID-19 took everyone by surprise with its rapid spread of infection and all the states had once again put in place capacity restrictions on operations. Our business continuity plan was put in motion and was tested during this period. The initial focus was to ensure safety of our employees and on minimizing disruption to services for all our viewers globally.

The pandemic has resulted in extreme economic and social stress in India and the world. The priority of the Company during this period has been to safeguard the health and well-being of employees, customers and communities at large while managing business operations as efficiently as possible. The Company has assessed the likely impact of the pandemic on the business. It has adversely impacted the business in the short term, but the long term drivers of the business are intact and the Company does not anticipate any material medium to long term risks to the business.

Company was continuously working to minimise the impact of the pandemic. To mitigate the adverse impact of COVID-19 on the business, the Company continued with its strategy to manage costs, cash flows and maintain adequate liquidity. While traditional and outdoor mediums of distribution of content, such as cinema theatres, continue to be unavailable; the home consumption mediums, such as television channels and OTT platforms have gained even more popularity and viewership. However, despite the rise in viewership, monetization and revenues are hugely impacted, considering reduction in ad-spends by other industries owing to the global recession.

DIVIDEND

Your Directors are of the view that resources of the Company need to be conserved for its future growth plans and hence do not recommend any dividend for the financial year 2021-22. The Company has not made any transfer to General Reserve.

TRANSFER OF UNCLAIMED DIVIDEND TO INVESTOR EDUCATION AND PROTECTION FUND

INDEPENDENT AUDITOR'S REPORT

To the Members of

News24 Broadcast India Limited

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying financial statements News24 Broadcast India Limited (the Company), which comprise the Balance Sheet as at 31 March 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the “standalone financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015 as amended (‘Ind AS’) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SA) specified under Section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Revenue Recognition

The Key Audit Matter

Revenue is measured net of any trade discounts and volume rebates to customers (“discounts and rebates”). Material estimation by the Company is involved in recognition and measurement of rebates and discounts. This includes establishing an accrual at year end, particularly in arrangements with varying terms which are based on annual contracts or shorter-term arrangements. In addition, the value and timing of promotions for products varies from period to period, and the activity can span beyond the year end.

We identified the evaluation of accrual for rebates and discounts as a key audit matter.

How the matter was addressed in our audit

Our audit procedures included:

- Understanding the process followed by the Company to determine the amount of accrual for discounts and rebates.
- Evaluating the design, implementation and operating effectiveness of Company’s general IT controls, key manual and application controls over the Company’s IT systems including over rebates agreements/arrangements, rebates payment/ settlements and company’s review over the rebate accruals.
- Inspecting on a sample basis, key customer contracts. Based on the terms and conditions relating to rebates and discounts, we assessed the Company’s revenue recognition policies with reference to the requirements of the applicable accounting standards.
- Performing substantive testing by selecting samples of rebate and discount transactions recorded during the year and matching the parameters used in the computation with the relevant source documents.
- Testing actualisation of estimated accruals on a sample basis.
- Examining historical rebate accrual together with our understanding of current year developments to form an expectation of the rebate accrual at period end. We compared this expectation against the actual rebate accrual, completing further inquiries and obtaining underlying documentation, on a sample basis, as appropriate. Further, we also performed retrospective review to evaluate the precision with which management makes estimates.
- Critically assessing manual journal entries posted to revenue, on a sample basis, to identify unusual items and examining the underlying documentation.
- Checking completeness and accuracy of the data used by the Company for accrual of rebates and discounts.
- Testing a selection of rebate accruals recorded after 31 March 2022 and assessing whether the accrual is recorded in the correct period.
- Testing a selection of payments made after 31 March 2022 and where relevant, comparing the payment to the related rebate accrual.

Provisions and contingent liabilities relating to taxation, litigations and claims

The key audit matter

The provisions and contingent liabilities relate to ongoing litigations and claims with various authorities and third parties. These relate to direct tax, indirect tax, transfer pricing arrangements, claims, general legal proceedings, environmental issues and other eventualities arising in the regular course of business.

As at the year ended 31 March 2022, the amounts involved are significant. The computation of a provision or contingent liability requires significant judgement by the Company because of the inherent complexity in estimating future costs. The amount recognised as a provision is the best estimate of the expenditure. The provisions and contingent liabilities are subject to changes in the outcomes of litigations and claims and the positions taken by the Company. It involves significant judgement and estimation to determine the likelihood and timing of the cash outflows and interpretations of the legal aspects, tax legislations and judgements previously made by authorities.

How the matter was addressed in our audit

Our audit procedures included:

- Understanding the process followed by the Company for assessment and determination of the amount of provision and contingent liabilities related to taxation, litigation and claims.
- Evaluating the design, implementation and operating effectiveness of key internal controls around the recognition and measurement of provisions and re-assessment of development of contingent liabilities.
- Involving our tax professionals with specialised skills and knowledge to assist in the assessment of the value of significant provisions and contingent liabilities relating to taxation matter, on sample basis, in light of the nature of the exposures, applicable regulations and related correspondence with the authorities.
- Inquiring the status in respect of significant provisions and contingent liabilities with the Company's internal tax and legal team. We challenged the assumptions and critical judgements made by the Company which impacted the computation of the provisions and inspected the computation. We assessed the assumptions used and estimates of outcome and financial effect. We considered judgement of the Company, supplemented by experience of similar decisions previously made by the authorities and, in some cases, relevant opinions given by the Company's advisors.
- Evaluating judgements made by the Company by comparing the estimates of prior year to the actual outcome.
- Assessing the assumptions used and estimates of outcomes and financial effect, including considering judgement of the company, supplemented by experience of similar decisions previously made by the authorities and, in some case, relevant opinion given by company's advisor.
- Testing data used to develop the estimate for completeness and accuracy.
- Evaluating the company's disclosures in the standalone financial statement in respect of provision and contingent liabilities.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit / loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143 (3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Cash Flows Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on 31 March 2022, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022, from being appointed as a director in terms of section 164(2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - (g) With respect to the other matters to be included in the Auditor's report in accordance with the requirements of section 197(16) of the Act, as amend. In our opinion and to the best of our information and according to the explanations given to us the remuneration paid by the company to its directors during the year is in accordance with the provision of section 197 of the Act.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigations which would impact its financial position;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Company has not declared or paid any dividend during the year and has not proposed final dividend for the year

Annexure A to the Independent Auditors' Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the company's Property, Plant and Equipment:
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.
 - (b) The Company has a regular programme of physical verification of Property, Plant and Equipment which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program Property, Plant and Equipment were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) The Company does not have any immovable properties taken on lease that are disclosed as Property, Plant and Equipment in the financial statements.
 - (d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii.
 - (a) The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records for each class of inventory.
 - (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks are in agreement with the books of account of the Company.
- iii. A The Company has not made any investment, provided guarantee or security or granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties during the year covered in the register maintained under section 189 of Act. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- iv. The Company has not made any investment, given any loan, guarantee, or security which attracts compliance of section 185 and 186 of Companies act. Accordingly, Clause 3(iv) of the Order is not applicable to the Company.
- v. A The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- vi. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause (vi) of the Order is not applicable to the Company.
- vii.
 - (a) The Company does not have liability in respect of Sales tax, Service tax, Duty of excise and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2022 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of GST, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Value added tax, Cess or other statutory dues which have not been deposited by the Company on account of disputes.

viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

ix. (a) The Company has not made any default in the repayment of loans to banks, government, debenture-holders, etc.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) On an overall examination of the financial statements of the Company has used the term loan for the object for which they were obtained.

(d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associates as defined under the Act. The Company does not hold any investment in any joint venture (as defined under the Act) during the year ended 31 March 2022.

(f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries or associate companies (as defined under the Act). The Company does not hold any investment in any joint venture (as defined under the Act) during the year ended 31 March 2022.

x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.

(b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.

xi. Considering the principles of materiality as outlined in the Standards on Auditing, we report that no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) We have not received any whistle blower complaint during the year (and upto the date of this report), while determining the nature, timing and extent of our audit procedures.

- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.

Annexure B to the Independent Auditors' Report

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the News24 Broadcast India Limited of even date)

Opinion

We have audited the internal financial controls over financial reporting of News24 Broadcast India Limited ('the Company') as of March 31, 2022 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial control system with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance note").

Management's Responsibility for Internal Financial Controls

The Company's Management and Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls Over Financials Reporting (IFCoFR) and the Guidance Note on Audit of Internal Financial Control Over Financial Reporting (the "Guidance Note") issued by the ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

2. BASIS OF PREPARATION, MEASUREMENT AND SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation and Measurement

(a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013.

An asset is treated as current when it is

- a. Expected to be realised or intended to be sold or consumed in normal operating cycle;
- b. Held primarily for the purpose of trading;
- c. Expected to be realised within twelve months after the reporting period; or
- d. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is treated as current when

- a. It is expected to be settled in normal operating cycle;
- b. It is held primarily for the purpose of trading;
- c. It is due to be settled within twelve months after the reporting period; or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

The standalone financial statements are presented in Indian National Rupee (INR), the functional currency of the Company. Items included in the standalone financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency'). Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions are recognised in the standalone statement of profit and loss. Foreign currency denominated monetary assets and liabilities are translated into functional currency at exchange rates in effect at the balance sheet date, the gain or loss arising from such translations are recognised in the standalone statement of profit and loss.

All amounts included in the financial statements are reported in lakhs of Indian rupees except share and per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures.

The standalone financial statements of the Company for the year ended 31st March, 2022 were approved for issue in accordance with the resolution of the Board of Directors on 30th May, 2022.

(b) Basis of measurement

These financial statements are prepared under the historical cost convention unless otherwise indicated.

The accounting policies adopted are the same as those which were applied for the previous financial year.

2.2 Key Accounting Estimates and Judgements

The preparation of the standalone financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

The Company uses the following critical accounting estimates in preparation of its standalone financial statements:

Impairment of investments in subsidiaries

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the statement of profit and loss.

Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

2.3 Amendments to Schedule III of the Companies Act, 2013

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards.

MCA issued notifications dated 24th March, 2021 to amend Schedule III to the Companies Act, 2013 to enhance the disclosures required to be made by the Company in its financial statements. These amendments are applicable to the Company for the financial year starting 1st April, 2021 and applied to the standalone financial statements:

- a. Certain additional disclosures in the standalone Statement of Changes in Equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- b. Additional disclosure for shareholding of promoters.
- c. Additional disclosure for ageing schedule of trade receivables, trade payables, capital work-in-progress.
- d. Specific disclosure such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in the name of the Company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties etc.
- e. Additional disclosures relating to Corporate Social Responsibility (CSR) and undisclosed income.

2.4 Recent Accounting Developments

Ministry of Corporate Affairs (MCA), vide notification dated 23rd March, 2022, has made the following amendments to Ind AS which are effective 1st April, 2022:

- a. Ind AS 109: Annual Improvements to Ind AS (2021)
- b. Ind AS 103: Reference to Conceptual Framework
- c. Ind AS 37: Onerous Contracts - Costs of Fulfilling a Contract
- d. Ind AS 16: Proceeds before intended use

Based on preliminary assessment, the Company does not expect these amendments to have any significant impact on its standalone financial statements.

2.5 Significant Accounting Policies

The significant accounting policies used in preparation of the standalone financial statements have been included in the relevant notes to the standalone financial statements.

(a) Revenue Recognition

Ind AS 115 'Revenue from Contracts with Customers'

The Companies (Indian Accounting Standards) Amendment Rules, 2018 issued by the Ministry of Corporate Affairs (MCA) notified Ind AS 115 "Revenue from Contracts with Customers" related to revenue recognition which replaces all existing revenue recognition standards and provide a single, comprehensive model for all contracts with customers. The revised standard contains principles to determine the measurement of revenue and timing of when it is recognised.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable. All revenues are accounted on accrual basis except to the extent stated otherwise.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation a cumulative adjustment is accounted for. The Company disaggregates revenue from contracts with customers by geography and nature of services.

- Revenue generated from the commissioned television programs and Internet series produced for broadcasters is recognized over the period of time over the contract period.
- Rent income is recognised on accrual basis as per the agreed terms on straight line basis.
- Sale of Rights are recognised in accordance with the terms of agreements with customers.
- Revenue from other services is recognised as and when such services are completed / performed.
- Income from infrastructure support, building rent and royalty income is recognised based on the terms of the underlying agreement.
- Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate (EIR) applicable.
- Revenue from subsidiaries is recognised based on transaction price which is at arm's length.
- Dividend income on investments is recognised when the right to receive dividend is established.

The transaction price, being the amount to which the Company expects to be entitled and has rights to under the contract is allocated to the identified performance obligations. The transaction price will also include an estimate of any variable consideration where the Company's performance may result in additional revenues based on the achievement of agreed targets.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the group does not adjust any of the transaction prices for the time value of money.

(b) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee

The Company's lease asset classes primarily comprise of lease for land and building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets as below:

i) Right-of-use Assets

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

ii) Lease Liabilities

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Company as a Lessor

Leases for which the Company is a lessor is classified as finance or operating lease. Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

(c) Property, Plant and Equipment

Property, plant and equipment are stated at costs less accumulated depreciation (other than freehold land) and impairment loss, if any. The cost includes purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. Subsequent expenditure on fixed assets after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Depreciation is provided for property, plant and equipment on pro-rata basis over the estimated useful life from the date the assets are ready for intended use. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the standalone statement of profit and loss.

The Management believes that the useful lives best represents the period over which the management expects to use these assets based on an internal assessment and technical evaluation where necessary.

Capital work-in-progress:

Amount paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work-in-progress. The capital work- in-progress is carried at cost, comprising direct cost, related incidental expenses and attributable interest.

Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

(d) Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities at fair value through profit or loss

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership

and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(e) Investments in Subsidiaries, Associates and Joint Ventures:

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognised in the Statement of Profit and Loss.

(f) Inventories:

Inventories are valued at the lower of cost and net realisable value. Cost is computed on a weighted average basis.

Cost of raw materials and stores and spares includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. The aforesaid items are valued at net realisable value if the finished products in which they are to be incorporated are expected to be sold at a loss.

Cost of finished goods and work-in-progress include all costs of purchases, conversion costs and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

(g) Cash and Cash Equivalents:

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

(h) Provisions and Contingent Liabilities:

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are

reviewed at the end of each reporting period and are adjusted to reflect the current best estimates. The Company uses significant judgements to assess contingent liabilities. Contingent liabilities are recognised when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the standalone financial statements.

(i) Expenditure:

Expenses are accounted on accrual basis.

(j) Employee benefits

Employee benefits include contribution to provident fund, superannuation fund, gratuity fund, compensated absences, pension and employee state insurance scheme.

Short Term Employee Benefits

Short term employee benefits including salaries and performance incentives, are charged to standalone statement of profit and loss on an undiscounted, accrual basis during the period of employment.

Defined Benefit Plans

Gratuity and Pension are defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations, being carried out at the date of each statement of financial position. The retirement benefit obligations recognised in the statement of financial position represents the present value of the defined obligations reduced by the fair value of scheme assets. Any, asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company.

Defined Contribution Plans

Contributions to defined contribution plans like provident fund and superannuation, funds are recognised as expense when employees have rendered services entitling them to such benefits.

Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are stated as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are stated as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

(k) Income Taxes:

Income tax expense for the year comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to a business combination or to an item which is recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable/ receivable on the taxable income/ loss for the year using applicable tax rates for the relevant period, and any adjustment to taxes in respect of previous years.

Interest expenses and penalties, if any, related to income tax are included in finance cost and other expenses respectively. Interest Income, if any, related to Income tax is included in Other Income.

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

Uncertain Tax Position

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The provision is estimated based on one of two methods, the expected value method (the sum of the probability weighted amounts in a range of possible outcomes) or the single most likely amount method, depending on which is expected to better predict the resolution of the uncertainty.

(I) Foreign Currencies:

1. Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Company's financial statements are presented in Indian rupee (INR) which is also the Company's functional and presentation currency.

2. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rate prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transaction and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are generally recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

3. Exchange differences

Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

(m) Earnings Per Share:

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

(n) Borrowings and Borrowing costs

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to Statement of Profit & Loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized as expense in the period in which they occur.

(o) Dividend Distributions

The Company recognizes a liability to make the payment of dividend to owners of equity, when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

(p) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of directors monitors the operating results of all product segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit and loss in the financial statements.

The operating segments have been identified on the basis of the nature of products/services. Further:

1. Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter - segment revenue.

2. Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result. Expenses which relate to the Company as a whole and not allocable to segments are included under unallocable expenditure.
3. Income which relates to the Company as a whole and not allocable to segments is included in unallocable income.
4. Segment results includes margins on intersegment sales which are reduced in arriving at the profit before tax of the Company.
5. Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.
6. Segment revenue resulting from transactions with other business segments is accounted on the basis of transfer price agreed between the segments. Such transfer prices are either determined to yield a desired margin or agreed on a negotiated business.

(q) Exceptional Items

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company's financial performance. Items which may be considered exceptional are significant restructuring charges, gains or losses on disposal of investments in subsidiaries, associates and joint venture and impairment losses/ write down in value of investment in subsidiaries, associates and joint venture and significant disposal of fixed assets etc.

(r) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non- financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted(unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

25. Employee Benefits

Disclosures pursuant to Ind AS - 19 "Employee Benefits" (notified under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rule 2015 (as amended from time to time) and other relevant provision of the Act) are given below:

Defined Contribution Plans

The Company has certain defined contribution plans. Contributions are made to provident fund, and employee's state insurance scheme for employees as per regulations. The contributions are made to registered funds administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual or any constructive obligation.

Contribution to Defined Contribution Plan recognised as expense for the year is as under:

Employer's Contribution to Provident Fund: Rs. 32.57 Lakhs (Previous Year Rs. 36.64 Lakhs)

Employer's Contribution to ESI: Rs. 1.46 Lakhs (Previous Year Rs. 1.45 Lakhs)

Defined Benefit Plans:

The Company offers gratuity to its eligible employees under defined benefit plans.

The gratuity plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days basic salary payable for each completed year of service. Vesting occurs upon completion of five continuous years of service. The gratuity fund is managed by third party fund.

The following table sets out the funded status of the defined benefit schemes and the amount recognised in the financial statements:

e. Actuarial Assumptions

Company attention was drawn to provision of accounting standard that actuarial assumptions are an entity's best estimates of variables that will determine the ultimate cost of providing postemployment benefits and shall be unbiased & mutually compatible.

i) Economic Assumptions

The principal assumptions are the discount rate & salary growth rate. The discount rate is generally based upon the market yields available on Government bonds at the accounting date relevant to currency of benefit payments for a term that matches the liabilities. Salary growth rate is company's long term best estimate as to salary increases & takes account of inflation, seniority, promotion, business plan, HR policy and other relevant factors on long term basis as provided in relevant accounting standard. Valuation assumptions are as follows which have been agreed by the company:

(₹ in Lakhs)

Particulars	Gratuity		Leave Encashment	
	March31,2022	March31,2021	March31,2022	March31,2021
Discount Rate (%)	7.22	6.76	7.22	6.76
Expected Rate of increase in Compensation Levels (%)	5.50	5.50	5.50	5.50
Expected Rate of Return on Plan Assets	--	--	--	--
Expected Average remaining working lives of employees (years)	19.74	19.78	19.74	19.78

ii) Demographic Assumption

Attrition rates are the company's best estimate of employee turnover in future determined considering factors such as nature of business & industry, retention policy, demand & supply in employment market, standing of the company, business plan, HR Policy etc. as provided in the relevant accounting standard

(₹ in Lakhs)

Particulars	Gratuity		Leave Encashment	
	March31,2022	March31,2021	March31,2022	March31,2021
i) Retirement Age (Years)	60	60	60	60
ii) Mortality Table	IALM(2012-14)	IALM(2006-08)	IALM(2012-14)	IALM(2006-08)
iii) Ages				
Up to 30 Years	3.00	3.00	3.00	3.00
From 31 to 44 years	2.00	2.00	2.00	2.00
Above 44 years	1.00	1.00	1.00	1.00

iii) Sensitivity Analysis of the defined benefit obligation.

(₹ in Lakhs)

	Gratuity	Leave Encashment
a) Impact of the change in discount rate		
Present Value of Obligation at the end of the period	97.74	15.18
Impact due to increase of 0.50%	(5.06)	(0.75)
Impact due to decrease of 0.50 %	5.44	0.79
b) Impact of the change in salary increase		
Present Value of Obligation at the end of the period	97.74	15.18
Impact due to increase of 0.50%	5.51	0.81
Impact due to decrease of 0.50 %	(5.16)	(0.76)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Notes:

- a) The current service cost recognised as an expense is included in Note 19 'Employee benefits expense' as gratuity. The remeasurement of the net defined benefit liability is included in other comprehensive income.
- b) The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the Actuary.

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- c) The obligation for leave benefits (non funded) is also recognised using the Projected Unit Credit Method and accordingly the long term paid absences have been valued. The leave encashment expense is included in Note 21 'Employee benefits expense'.

26. Related party transactions

The related parties as per the terms of Ind AS-24, "Related Party Disclosures", (under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rules 2015 (as amended from time to time), as disclosed below:-

1. The All Related Party Transactions entered during the year were in ordinary course of the business and on arm's length basis.
2. There have been no guarantees provided or received for any related party receivables or payables. For the year ended March 31, 2022, the Company has not recorded any impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.
3. The remuneration of directors and key executives is determined by the remuneration committee having regard to the performance of individuals and market trends.

The above figures do not include provisions for encashable leave, gratuity and premium paid for group health insurance, as separate actuarial valuation / premium paid are not available

27. EARNING PER SHARE

Basic earnings per share is computed by dividing profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. The Company did not have any potentially dilutive securities in any of the years presented.

Particulars	(₹ in Lakhs)	
	For the year ended	
	2021-22	2020-21
Profit for the year	460.43	200.31

28. FINANCIAL INSTRUMENTS

a) Fair Value Measurements

Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk. The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received.

Other financial liabilities	5,302.64	5,302.64	5,714.48	5,714.48

* Includes current maturities of long term borrowings.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Financial instruments measured at amortised cost.

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

The carrying value of current trade receivables, cash and cash equivalents, current loans, trade payables and other financial assets and liabilities are considered to be the same as their fair values due to their short term nature.

c) Financial Risk Management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, loans, trade and other receivables and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks.

i. Credit risk management

Credit risk is the risk of financial loss to the Company if a customer or counterparty fails to meet its contractual obligations and arises principally from the Company's receivables, deposits given, loans given, investments made and balances at bank.

The maximum exposure to the credit risk at the reporting date is primarily from investments made, loans given and trade receivables.

In case of trade receivables, the Company does not hold any collateral or other credit enhancements to cover its credit risks. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain.

Trade receivables are non-interest bearing and the average credit period is 90 days. The Company's exposure to customers is diversified and no customer contributes to more than 10% of outstanding trade receivables and unbilled revenue.

The carrying amount of following financial assets represents the maximum credit exposure:

	(₹ in Lakhs)	
<i>Particulars</i>	<i>March 31,2022</i>	<i>March 31,2021</i>
<i>Trade Receivable (Unsecured)</i>		
- Over six months	916.88	937.54
-Less than six months	4,199.55	2,629.54
Total	5,116.43	3,567.08

Trade receivable consists of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of the accounts receivable.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit-rating agencies. The credit risk on optionally fully convertible debentures and deposit is limited because the counter parties are generally banks and financial institutions with high credit ratings assigned by credit rating agencies.

ii. Liquidity risk management

The responsibility for liquidity risk management rests with the Board of directors, which has an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities by regularly monitoring forecast and actual cash flows.

iii. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a. Foreign currency risk exposure:

The Company does not have any exposure to foreign currency risk as at March 31, 2022 (Previous year Nil).

b. Interest rate risk

The Company's investments are primarily in fixed rate interest bearing investments. Hence, the Company is not significantly exposed to interest rate risk.

c. Other price risk

The Company is exposed to equity price risks arising from equity investments. The Company's equity investments are held for strategic rather than trading purposes.

d. Equity price sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks at the end of the reporting period.
